

SGA Senate Resolution on Sustainability

As representatives of the student body, we as the SGA Senate feel sustainability is important to our community for the following reasons:

- To create a cleaner environment for our community.
- To support environmentally friendly technology that enables fiscally responsible practices.
- To reduce Stonehill College's environmental footprint and protect its natural resources.
- To preserve the natural beauty of the campus.
- To educate the Stonehill community on issues of sustainability for local and global benefits.
- To sustain and improve the overall quality of life for ourselves and our environment.

Therefore, be it resolved that we as a student body take it upon ourselves to promote sustainability, practice recycling, and protect the environment of our community.
