LIBERAL ARTS - HUMANITIES | English, History, American Studies, Religion, Gender Studies, Philosophy, Languages, Visual and Performing Arts
This session is designed for students who may be interested in pursuing a major in the humanities. Current students and faculty from a variety of majors will be featured. In addition to the classroom experience, opportunities to learn beyond the classroom will be discussed. Theatre & Visual and Performing Arts will host break-out sessions following the panel.

LIBERAL ARTS - SOCIAL SCIENCES | Political Science & International Studies, Economics, Interdisciplinary Studies, Communication, Sociology, Criminology, Pre-Law Advising
This session is designed for students who are interested in pursuing a major in the social sciences. The presentation will include both current social science students and faculty who will discuss their experiences in their programs.

SCIENCE PANEL | Biochemistry, Biology, Chemistry, Neuroscience, Physics and Astronomy, Environmental Sciences, Interdisciplinary Studies – Health Sciences
The science panel will begin with a presentation led by students and faculty on the opportunities available to science majors. Immediately following will be a tour of the Shields Science Center classrooms and labs.

HEALTH & ALLIED HEALTH ADVISING PANEL | Health and Allied Health (Pre-med, Pre-dent, Pre-PA)
This session will focus on the advising process for students interested in pursuing health (medical, dental, optometry, podiatry, chiropractic, and veterinary) or allied health (physician assistant, nurse practitioner, nursing, physical therapy, pharmacy, etc.) careers.

BUSINESS PANEL | Accounting, Finance, International Business, Management, Marketing, Economics, Healthcare Administration
Information will be provided on all programs offered for those students interested in pursuing a Business, Economics or Healthcare Administration major. Students will discuss course offerings, internships, professional placements after graduation and the advantages of studying business in an AACSB accredited program.

PSYCHOLOGY PANEL | Psychology
Faculty will lead a panel presentation by students followed by a tour of the Psychology observation rooms and laboratories in the Shields Science Center. This panel is for students who have an interest in Psychology as a major.

MAJORS FAIR
Representatives from each academic program as well as Academic Services & Advising and the Moreau Honors program will be available to meet individually with students to discuss specific options and answer any questions.

LUNCH | Sessions A & B
Specific lunch times have been assigned to the outside of your folder ensure everyone will have an opportunity to visit the Majors Fair.
3+2 ENGINEERING
Professor Ralph Bravaco and Cathy Pieronek, Associate Academic Dean of The College of Engineering at the University of Notre Dame, will discuss the details of our 3+2 Engineering program.

MATH & COMPUTER SCIENCE
Professor Ralph Bravaco and students will review traditional Math and Computer Science majors.

ACADEMIC ADVISING PANEL
This session will provide an introduction to the academic advising services that assist students in discovering their major.

INTERNSHIPS & CAREER SERVICES
How does Stonehill help prepare you for life after graduation? With almost 90% of students utilizing our office, come hear why Career Services is an important resource to know about early on in your academic career. We don't simply critique resumes; we ask about your goals and then provide a customized action plan to achieve them. From internships to mentors to mock interviews, you will be prepared for life after Stonehill.

EDUCATION PANEL | Early Childhood, Elementary Education, Secondary Education
Students and faculty will describe the Department of Education Studies’ process of teacher development. This includes student teaching and the 9 licensure programs that lead to initial licensure from the Commonwealth of Massachusetts Department of Elementary and Secondary Education.

ADMISSION & FINANCIAL AID
Members of the Admission and the Student Financial Services Offices will discuss Stonehill's approach to application review, merit scholarships, and provide an overview of the need-based financial aid process.

STONEHILL ATHLETICS AND RECREATIONAL SPORTS
Members of the Athletics Department will present on the athletic culture at Stonehill. This is also an excellent opportunity to learn more about the Stonehill Skyhawks, our 20 varsity teams, 10 intercollegiate clubs, and multiple intramural programs.

STUDENT LIFE | Residence Life, Student Activities, Intercultural Affairs, Campus Ministry
This panel will give you a feel for daily life for students at Stonehill. Topics will include On-Campus Clubs, Community Service, Campus Ministry and Campus Events. Stonehill offers over 70 clubs and organizations and sponsors frequent on-campus events throughout the semester.

STUDY ABROAD & INTERNATIONAL INTERNSHIPS
The Office of International Programs will discuss with students of all major the many semester-long international opportunities available to them during their college career. Students returning from a semester-long abroad program will share their experiences about studying, interning, living, and learning in another country and culture.
